

brickdesign

paint

The "Paint" decoration system has been created to meet the demand for personalisation from architects and interior designers. Making every project unique, individual and exclusive is now possible, and could not be easier.

- Just choose the ideal colour on the Pantone® scale and order a sample directly from Emilceramica.
- A benchmark sample will be produced and sent for approval, and the material ordered will be delivered in just 4 working weeks.
- Even just one pack of material can be ordered, meaning 34 pieces for the 6x25 cm size, or 26 pieces in size 12.5x25.

Brick Design Paint brings vibrant colour to any interior and truly sets the imagination free.
